Damerow Ford Burglarized **Suspect Caught in Milwaukie**

Released: January 19, 2012
Case No: 12-00431

On January 19, 2012, at 7:11 a.m., Beaverton Police Department received a call regarding a burglary that had taken place over night at Damerow Ford 12325 S.W. Canyon Road. The caller reported every car key had been stolen in addition to a 2012 Shelby Mustang.

As officers arrived they learned the burglary was discovered when the morning manager came in to open. The suspect had entered the business by breaking a window on a side bay door. The managers officer had been ransacked, one desk destroyed and the door damaged from being kicked in.

At 5:09 a.m. this morning the Milwaukie police stopped a subject, in a 2012 Shelby Mustang, for speeding and not having any license plates. The suspect fled on foot but was captured a short distance away. Further investigation revealed several dealer license plates and an estimated 200-300 car keys inside the vehicle all linking them to Damerow Ford.

Detectives went to assist Milwaukie police and it appears all items taken in the Damerow burglary were recovered and the \$58,000 Shelby Mustang was not damaged.

Arrested was 41 year old Robert L. Bourne of Vancouver, Washington. Bourne will be lodged at the Washington County Jail for Unauthorized Use of a Vehicle, Burglary II, Possession of a Stolen Vehicle and Criminal Mischief. No mug shot is available at this time and a photograph of the mustang will be accessible shortly.
