DISASTER FEMA DR-4562-OR

Clackamas, Douglas, Jackson, Klamath, Lane, Lincoln, Linn, and Marion Counties Workers May Be Eligible for Disaster Unemployment Assistance

The Oregon Employment Department announced the availability of Disaster Unemployment Assistance (DUA) on Sept. 23, 2020 for individuals who became unemployed, had their work hours substantially reduced or are unemployed self-employed individuals as a direct result of the wildfires and straight-line winds that took place since September 7, 2020. They also must not qualify for regular state Unemployment Insurance (UI), Pandemic Emergency Unemployment Compensation (PEUC), other extension programs, or Pandemic Unemployment Assistance (PUA) benefits.

Disaster Unemployment Assistance (DUA) is a federal program that provides temporary unemployment assistance benefits to individuals whose employment or self-employment has been lost or interrupted or had their work hours greatly reduced as a direct result of a major disaster. The Oregon Employment Department administers the DUA program for the U.S. Department of Labor, Employment and Training Administration, on behalf of the Federal Emergency Management Agency (FEMA). Individuals eligible for regular unemployment benefits or Pandemic Unemployment Assistance (PUA) are not eligible for DUA.

DUA is available to eligible individuals for weeks of unemployment beginning September 13, 2020. Benefits for this disaster will be available until March 20, 2021, as long as your unemployment continues to be a direct result of the major disaster. The **deadline** for filing a DUA claim related to these fires is **October 23, 2020**.

In addition to people who lost their jobs as a direct result of the major disaster, DUA may include individuals who:

- were unable to reach their job because of the disaster,
- were scheduled to and prevented from beginning work or self-employment in the disaster area,
- were unable to work due to injury as a direct result of the disaster, or
- became head of household due a death caused by the disaster,
- Have applied for and used all regular unemployment benefits from any state, or do not qualify for regular unemployment benefits, or extension programs and remain unemployed as a direct result of the disaster.

Unemployment is a direct result of the major disaster if the unemployment resulted from:

- the physical damage or destruction of the place of employment;
- the physical inaccessibility of the place of employment due to its closure by the federal, state, or local government in immediate response to the disaster; or
- lack of work, or loss of revenues, if, prior to the disaster, the employer or self-employed business received at least a majority of its revenue or income from an business in the major disaster area that
