

ODF Fire Report: Wednesday, Sept. 16, 2020

Oregon Activity Summary

We are closely monitoring **12** major fires in Oregon, down from 17 yesterday (see table below for details). Fires are removed from the list when they are 100% lined and fire managers are confident in their progress toward containment. There are more than 6,000 personnel assigned to these fires from across the nation and Canada. This doesn't include the many of the government emergency response employees, landowners, forestland operators, and members of the community who are contributing to the fight in whatever way they can. About **1 million acres** have burned in Oregon since the start of this year, which is **nearly double the 10-year average** of approximately 557,811.

Fire name	Acres burned (est.)	Containment	Location
Beachie Creek	190,911	20%	15 miles N of Detroit
Lionshead	183,744	10%	20 miles W of Warm Springs
Holiday Farm	167,422	8%	3 miles W of McKenzie Bridge
Riverside	135,956	3%	2 miles SE of Estacada
Archie Creek	125,498	20%	20 miles E of Glide
Brattain	34,155	15%	8 miles S of Paisley
S. Obenchain	32,513	25%	5 miles E of Eagle Point
Slater	30,998 in Oregon	10%	SE of Cave Junction (also in No. California)
Two Four Two	14,536	21%	W/NW of Chiloquin
Thielsen	7,778	1%	E of Diamond Lake
Echo Mtn. Complex	2,552	40%	4 miles NE of Lincoln City
North Cascade Complex	2,315	-	Multiple locations in ODF's North Cascade District

Please note: The acres burned estimates above are based very limited information available. These numbers will change over the next several days, in some cases significantly. We will be taking every opportunity to map these fires. Fire maps are an important tool for both ongoing response operations and keeping people informed.
