Fire District No.2 and Winston-Dillard to Conduct Hydrant Flushing and Testing

Starting from Monday, May 6th, and continuing until the task is completed, Douglas County Fire District No.2 & Winston-Dillard Fire District firefighters will be flushing and maintaining fire hydrants in the service area of the Fire District, which includes the communities of Dixonville, Green, Melrose, Winchester, Wilbur, Winston, Garden Valley, Umpqua, and unincorporated areas of the City of Roseburg. The testing will be conducted from 9:00 a.m. to 5:00 p.m., Monday through Thursday, and 9:00 a.m. to 12:00 p.m. on Friday. During this process, water discoloration is possible depending on how bad the sediment on the water mains is, but rest assured, the water is safe to drink. The water purveyor(s) will issue a boil alert if water is unsafe to drink. If you experience issues with your water during this time, please allow water to run through your faucets until it clears.

If you have any questions or want more information about fire hydrant flushing/testing, contact Douglas County Fire District No.2 at 541-673-5503.
